

Did you test positive for COVID-19?

We have COVID-19 treatments that can help if you:

- Started mild to moderate symptoms in the past 7 days.
- Are at high risk of severe illness from COVID-19.

You are at risk of severe COVID-19 if you:

- Are 65 or older.
- Are unvaccinated or partially vaccinated.
- Have a compromised immune system.
- Have chronic health problems.

Treatments are safe, effective and free. You don't need insurance.

These treatments help prevent severe COVID-19 within a certain amount of time. The sooner you start your treatment, the better it works.

Antiviral medications

Must start within 5 days of your first symptom.

Monoclonal antibodies

Must start within 7 days of your first symptom.

To use these treatments, you must be:

- 12 years or older.
- Weigh at least 88 pounds.
- At high risk of severe illness from COVID-19.
